3 STEPS TO WRITTEN EXAM SUCCESS

This comprehensive course makes it easier to prepare for your Psychiatry Written Board Exam by providing all the materials you need and addressing all aspects of the exam. Once you've taken the course, you can feel confident that you're ready to take your written boards — and we guarantee the results with the Triple Trust Guarantee!

STEP 1: THE NEUROLOGY REVIEW

We call our approach "Neurology Made Clear." We have found that what makes neurology all the more difficult to master is that inadequate attention is given to the fundamentals. That's why we scoured texts and interviewed neurologists to find methods for teaching neurology in the easiest way possible. You will be amazed at the progress you make.

- **Focused Topics:** The course focuses specifically on the topics covered in the neurology portion of the exam.
- **Exam-Style Questions:** Lectures are interspersed with multiple-choice practice questions to illustrate the teaching points and deepen your retention.
- **Visualization:** The course uses visual illustrations and mnemonic devices to speed your learning of this challenging area.

STEP 2: THE PSYCHIATRY REVIEW

Just as in The Neurology Review, this comprehensive course makes it easy for you to absorb and retain the information you need to pass the exam.

- **Board-Certified Faculty:** Our course lecturers are board-certified psychiatrists with first-hand knowledge of the exam.
- **Focused Topics:** The course focuses specifically and exclusively on the topics covered in the Psychiatry 1 Written Board Exam.
- **Proportional Time:** Lecture content is calibrated so that the amount of course time devoted to each topic is in direct proportion to the number of board exam questions in that area.
- **Exam-Style Questions:** Lectures are interspersed with multiple-choice practice questions that are reviewed and analyzed during the course.

STEP 3: ONLINE FOLLOW-UP

Your learning doesn't end when the course ends. Continue to develop your mastery of the material after the course with these crucial online course components..

- **Online Practice Exams:** Receive password-protected access to online practice exams with hundreds of exam-style multiple-choice questions.
- **Streaming Video Lectures:** Each and every lecture presented at the course is videotaped and uploaded to a secure website. Upon your return home, review the lectures online as often as you like up to the time of your exam. It especially helps to review the neurology lectures, which are dense with information. Course participants rave about the usefulness of this course feature!
